• Conceptualize and design engaging ad creatives specifically for Instagram and LinkedIn, tailoring visuals to platform specifications and audience demographics.
• Analyse the performance of ad visuals and use insights to iterate on designs for improved engagement and conversion ra

KEY PROJECTS:

Project Title	Duration	Platform Used	Brief Description
ISRO Interactive Space Exploration Website LINK	3 Weeks	Figma, Adobe XD, Photoshop	Designed a comprehensive and interactive UI/UX for a website dedicated to ISRO's achievements, missions, and space exploration. Created a visually engaging hero section featuring explorable planets and developed detailed, user-friendly layouts for sections on missions, starships, and ISRO's history.

3D Carousel Slider LINK	4 days	Figma, Adobe XD, Photoshop	A 3D carousel slider is an interactive user interface element that presents several objects (such as pictures or cards) in a rotating or circular arrangement, creating the illusion of depth and movement. In order to provide a dynamic and captivating visual experience, users can scroll or swipe between the items, which rotate in 3D space (forward and backward) such that the current item seems centralized while others retreat and lean into the background.
College Sports Management System	1 Week	HTML, CSS, JavaScript, Node.js, MySQL	Developed a web-based platform for managing college sports activities, including event scheduling, participant registration, and score tracking. Implemented frontend with HTML/CSS/JavaScript and backend integration using Node.js and MySQL to streamline sports event coordination.
Anviksha Tech Fest: Brand Identity & Graphic Design LINK	4-6 weeks	Adobe Photoshop, Canva	Created a comprehensive suite of promotional and event materials, including official logos, banners, posters, social media graphics, and digital announcements.

CERTIFICATIONS:
